## SUMMARY

Analytical Backend Developer with expertise coding in [Language] and [Number] years in [Type] industry. Adept with Agile development, partnering with project teams to define client requirements and delivering solutions to address needs. Exceptionally skilled at building relationships with coworkers and leadership teams.

## SKILLS

- Testing and debugging
- JavaScript expert
- Project documentation
- Test development
- Library design
- Javascript Programming
- Application development
- Database programming
- Problem-Solving
- Technical Analysis
- Code reviews
- Strong Communication
- Customer-oriented
- HTML
- Software architecture

## EXPERIENCE

- 01/2021 - 01/2022 **BACKEND DEVELOPER, Sleek Digital, Myria, Singapore**
- Coded, tested, and developed solutions in alignment with project requirements.
  - Designed client-side and server-side architectures and implemented cloud-based back end solutions.
  - tested and resolved problems with software functionality and recommended improvements to applications.
  - Defined and maintained databases to deliver responsiveness to data client requests.
  - Analyzed and debugged new software and features to meet client expectations.
- 01/2020 - 01/2021 **Full Stack Developer, Torinit, Toronto**
- Managed both back-end and front-end aspects of development process.
  - Completed code debugging and implemented fixes to resolve problems based on a priority system.
  - Produced high-quality code artifacts that conformed to standards and best practices.
  - Interpreted briefs to create high-quality coding that functions according to specifications.
  - Communicated issues, risks, and concerns to management and offered solutions and mitigation strategies.
- 01/2017 - 01/2020 **JUNIOR SOFTWARE ENGINEER, Sleek Digital, Singapore, Singapore**
- Tested software to alleviate bugs and troubleshoot issues prior to going live.
  - Collaborated with development team members to create and integrate high-availability solutions for mission-critical applications.
  - Implemented and tested enhancement feature requests to improve product

functionality and extend performance.

- Created and implemented tracking software with modules designed for specific client needs.
- Cooperated with project partners to develop system analysis and a new system design based on client specifications.

## EDUCATION AND TRAINING

2017

**BACHELOR OF COMPUTER SCIENCE**  
*Ontario Tech University, Canada*

2014

**Bachelor Of Science**  
*Hong Kong University of Science And Technology, Hong Kong*

## PROGRAMING LANGUAGE

- JavaScript/TypeScript **95%**
- C/Java/Rust **95%**
- React **95%**
- Angular/Vue **80%**
- Node.js **95%**
- Python + Django **70%**
- ASP.NET **85%**
- PostgreSQL/MySQL **85%**
- ORM **85%**
- Blockchain **85%**
